

KOKKIRALA GNANESWARA ANJANI PRASAD

gnaneswarkokkerala@gmail.com | +91 6309764875 | Chilakaluripet, Andhra Pradesh
[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

OBJECTIVE

Aspiring Software Engineer with knowledge of Python, SQL, and Generative AI, and hands-on experience building RAG-powered LLM applications, seeking to contribute to innovative and scalable solutions.

TECHNICAL SKILLS

Programming Language	:	Python
Python Libraries	:	NumPy, Pandas, Plotly, Scikit-learn
Database	:	SQL (SQL Server)
Generative AI	:	LLMs, RAG, Prompt Engineering, Vector Databases, API Integration
AI/ML Fundamentals	:	Artificial Intelligence, Machine Learning, Deep Learning
Frontend Basics	:	HTML, CSS
Tools & IDEs	:	Visual Studio Code, GitHub

INTERNSHIP EXPERIENCE

Artificial intelligence Intern From IBM SkillsBuild. Sep – Oct 2025
Completed 4-week IBM SkillsBuild (AICTE) internship gaining hands-on experience in AI concepts, Python programming, and real-world AI application development.

PROJECTS

AI RAG Chatbot | [Live](#) | [GitHub](#)

- Built a hybrid AI chatbot supporting both RAG-based document Q&A and direct LLM-based responses for general queries.
- Implemented ChromaDB vector embeddings for semantic search and retrieval of relevant document context.
- Integrated LLaMA 3.3 70B via Groq API with a RAG pipeline for context-aware document retrieval and response generation.
- Implemented SQLite-based authentication system for secure user login and personalized access.

Tech Stack: Python, Streamlit, ChromaDB, Groq API, LLaMA 3.3 70B, SQLite, sentence-transformers, bcrypt.

FitAI – Personalized Fitness & Diet Assistant | [Live](#) | [GitHub](#)

- Built an AI fitness system that provides personalized workout and diet recommendations with health tracking insights.
- Developed an AI-driven backend system for generating responses, managing user data, and fitness tracking
- Created analytics and visualization modules to track user progress and health trends over time.

Tech Stack: Python, Flask, SQLite, Groq API (LLaMA 3.3), Pandas, NumPy, Plotly, Bcrypt, HTML, CSS

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science and Engineering Tirumala Engineering College, Narasaraopet	2022- 2026 71%
Intermediate (MPC) Sri Chaitanya Junior College, Chilakaluripet	2020 - 2022 76%
Secondary School Education (SSC) Chaitanya High School, Chilakaluripet	2019- 2020 95%

CERTIFICATIONS

• Certified in Python by Cisco Networking Academy.
